

INTEGRATING SUSTAINABILITY AND HEALTH IN BUILDINGS THROUGH RENEWABLE MATERIALS

March 27th | Koper, Slovenia

2020

You are invited to submit an abstract to present at the InnoRenew CoE International Conference 2020.

Presenters at this one-day conference will have the opportunity to share emerging science and innovations in renewable materials that can be used to develop built environments that enhance human and environmental well-being. Sessions include:

- Digital solutions in renewable materials
- Enhancing renewable materials with modification
- Developments in renewable material composites
- Advancing human health in the built environment
- Design and engineering solutions for sustainable buildings

Abstracts submissions are due 15 October 2019 and will undergo peer review. Submit online at <https://conf.innorenew.eu/iric2020>

Presenters may choose to have their abstract considered for full paper publication in a special edition of **Interdisciplinary Perspectives on the Built Environment (IPBE)**. IPBE is an open access, peer reviewed journal published by the InnoRenew CoE that presents high-quality research at the nexus of sustainability, health, and the built environment.
