

## AGENDA

**13<sup>th</sup> DECEMBER 2022**

FREE AND ONLINE

9:30 - 9:40	Introduction to the workshop
<b>Industry-oriented and Market-oriented session</b>	
9:40 - 10:00	<p><b>Colloidal Lignin Systems for Cosmetic Applications</b>  <b>Stefan Beisl, Head of R&amp;D, Lignovations</b>  <i>Hurdles and benefits of lignin as colloidal particles in emulsion-based cosmetic formulations.</i></p>
10:00 - 10:20	<p><b>Lignoflow<sup>®</sup> technology: high-consistency lignin nanoparticles without any organic solvents</b>  <b>Ievgen Pylypchuk, CTO, Lignoflow</b>  <i>Brief information about the Lignoflow, our activities, and our place in the industry. In addition, an overview of the Lignoflow<sup>®</sup> technology will be given.</i></p>
10:20 - 10:40	<p><b>Lignopure Naturally functional</b>  <b>Daniela Arango, CPO, Lignopure</b>  <i>Let's have a look at this 2-year journey of transforming lignin into multifunctional ingredients for high-value applications. We will share an overview of how it all started and what are the perspectives for lignin-based ingredients in the cosmetics market.</i></p>
10:40 - 11:00	<p><b>From side stream to mainstream – UV-blockers from sawdust?</b>  <b>Ann-Sofie Fonsen, Development Director, Montinutra</b>  <i>Montinutra develops and commercialises new ingredients from sides streams of the sawmilling industry, specifically sawdust and bark. These biopolymers can be used, e.g., as active ingredients in cosmetics.</i></p>
11:00 - 11:20	<p><b>What could be the key success factors of a new ingredient for the cosmetic industry?</b>  <b>Aline Dedobelle, Strategy &amp; Business Development, Beauty &amp; Wellness, CosmeLink SAS</b>  <i>From the market trends and consumers' requirements to the translation into the finished product and impact on ingredients.</i></p>
11:20 – 11:40	<p><b>The supply chain of the future-Circular Economy Cosmetics from BELLEJO</b>  <b>Claudia Condulet, Founder BELLEJO</b>  <i>BELLEJO is a female-led start-up which develops a bio-based sunscreen product with novel ingredient Lignin from the circular economy. Mission: While others see waste, we see beauty. BELLEJO will lead the new wave of circular economy and we aim to create a cultural change in how we want to protect ourselves and our ecosystems.</i></p>
11:40 – 12:00	Panel discussion on the challenges of new bio-based ingredients in the cosmetic field

Registration required
